Campaign Version: 1.0

Phase 1: Benchmark Report — Groupe Bimo

Brand Audit

Groupe Bimo is a leading Algerian FMCG conglomerate specializing in Biscuiterie, Chocolaterie, Gaufretterie, and cocoa bean transformation. The brand portfolio includes household names like Croc Matin, Petit Bimo, Rapidôs, Goldy, Master Choc, and the new **Cookies Banane-Coco-Caramel** line.

Market Context: The FMCG biscuit category in North Africa is crowded with both global (Oreo, LU) and regional players. Bimo differentiates on local heritage, quality ingredients, and accessible pricing.

Digital Presence: A functional but dated website (groupebimo.com) with basic product listings, recipe pages, and social media links. Limited visual storytelling or lifestyle content.

Campaign Need: Launch photography and billboard mockups for the new Cookie line, emphasizing authentic real-life visuals over artificial renders.

Positioning

Essence: *Indulgent, accessible, and high-quality sweet treats for everyday enjoyment.*

Brand Pillars:

1. **Authenticity:** Real ingredients (cacao transformation) and relatable consumption moments.
2. **Innovation:** Exciting flavor combinations like Banana-Coco-Caramel.
3. **Joy & Sharing:** Enhancing family and social moments with delicious snacks.

Tone of Voice: Warm, inviting, simple, confident.

Gaps & Opportunities

Gap	Opportunity
Dated digital presence — no lifestyle imagery on site	Create a library of authentic photography and billboard mockups
Heavy reliance on flat packaging shots in existing marketing	"Slice-of-life" real-world visuals showing texture, crumbs, context

No visible outdoor/billboard advertising	Deliver ready-to-use billboard mockups for OOH placements
Weak brand storytelling around cocoa sourcing	Leverage "bean-to-bar" narrative to elevate quality perception

Persona

The Everyday Indulger

- **Name:** Amina / Youssef
- **Age:** 18–45
- **Occupation:** Student, active professional, or parent
- **Psychographics:** Values quality and taste but needs convenience. Seeks small moments of joy during busy days — a coffee break, a kids' snack time, an afternoon treat.
- **Media Habits:** Instagram, YouTube, OOH billboards during commute.
- **Needs:** Authentic visual cues that promise delicious taste. Relatable scenarios, not sterile ads.

Phase 2: Visual Direction — Groupe Bimo

Moodboards: Conceptual Themes

Theme 1: "Authentic Indulgence" (Primary)

Real-world scenarios: sunlight streaming across a rustic wooden kitchen table, a hand breaking a banana-coco-caramel cookie in half, crumbs catching the light, steam rising from a coffee cup beside the package. The mood is warm, inviting, visceral.

Theme 2: "Urban Snack Moment" (Billboard Focus)

Bold, high-energy outdoor scenes — a cookie held against a sunlit city skyline, a vibrant street-side café table, oversized product shot with typography overlaying the urban backdrop. Designed for OOH billboard readability from distance.

Layout

- Clean, minimal — let the photography lead
- Billboard: centered product + headline, brand logo bottom-right
- Digital: large hero images with bold overlapping typography
- Drop shadows for depth on packaging mockups

Tone

- Joyful, appetizing, authentic, inviting
- Warm but not sentimental — confident and modern
